

Ruby 101

Ruby Basics: Creating Classes

Creating a class:

```
class Class_name  
  ...  
end
```

Instantiating:

```
my_object = Class_name.new
```

Example of a class:

```
class Table
```

```
  attr_accessor :height, :width, :length
```

```
end
```

Ruby Basics:

Ruby Basics:

Extending the class:

```
class Table
  def cost
    @length * @width * 5 + 4 * @height * 2
  end
end
```
